INVENTORY STOCKING AGREEMENT

This Inventory Stocking Agreement (this "**Agreement**" or "**ISA**") is made and entered into as of May 7, 2024 (the "**Effective Date**"), by and between LAM RESEARCH CORPORATION, a Delaware corporation, having its principal place of business at 4650 Cushing Parkway, Fremont, California 94538-6470, on behalf of itself and its affiliates, including its directly or indirectly controlled subsidiaries ("**Lam**") and ASTUTE ELECTRONICS INC., a Texas corporation having its principal place of business at 500 Center Ridge Drive, Suite 600, Austin, Texas 78753 for itself and its affiliates, including its directly or indirectly controlled subsidiaries ("**Supplier**"). Lam and Supplier may also be referred to individually as a "**Party**" or jointly as the "**Parties**".

In consideration of the mutual obligations and benefits set forth in this Agreement, the exchange of which is hereby fully acknowledged, the Parties agree as follows:

1. GENERAL:

1.1 Purpose: This ISA documents the general terms and conditions applicable to the allocation and stocking of particular products, parts, or materials ("**ISP Materials**") at Supplier's facility to meet Lam's minimum inventory requirements for the timely manufacture of certain products, equipment, systems, or modules for Lam according to Lam's forecast, and to establish Lam's financial liability, if any, for such ISP Materials.

1.2 ISP. Supplier agrees to adhere to Lam's Inventory Stocking Procedures ("**ISP**"), which are attached hereto and incorporated by reference into this ISA, during the Term of this Agreement as set forth below.

1.3 Scope: This Agreement also contemplates that, on occasion upon receiving appropriate written authorization from Lam, Lam's Authorized Third-Party Suppliers may also request to purchase the ISP Materials from Supplier under the same terms and conditions set forth in this Agreement and the ISP attached hereto and incorporated herein by reference. For purposes of this ISA, "**Authorized Third-Party Supplier**" shall have the meaning set forth in the attached ISP. Supplier understands and agrees that the policies and procedures contained in the ISP shall be binding upon the Parties and the ISP may be revised from time to time by Lam upon Lam providing Supplier with thirty (30) days' prior written notice.

1.4 Term and Termination: The initial term of this ISA shall commence on the Effective Date set forth above and shall continue for a period of three (3) years from said Effective Date, unless the duration of the Agreement is otherwise terminated or extended as provided for under this ISA or by operation of law. The Parties agree that Lam may extend the Term of this ISA for a period of up to three (3) years by providing Supplier with written notice of Lam's election to extend the ISA Term, no less than sixty (60) days prior to the expiration of the existing Term. For purposes of this Agreement, the initial term and any extended term is the "**Term**". Lam may terminate the ISA for convenience at any time upon giving Supplier thirty (30) days' prior written notice. Lam may terminate this ISA for cause at any time if Supplier: (i) becomes insolvent or declares bankruptcy, (ii) is acquired in whole or in part by a third party, or (iii) commits a material breach of this ISA, which includes but is not limited to Supplier's failure to maintain the Minimum Inventory Quantities for any ISP Material, and fails to cure such breach within three (3) business days (or a different cure period that is otherwise agreed to by Lam in writing). Notwithstanding, Supplier shall not be in material breach of this Agreement if order(s) (by Lam or Lam's Authorized Third-Party Suppliers) for Supplier products that utilize an ISP Material exceed the Quantity Difference and bring the quantity of such ISP Material below the Minimum Inventory Quantity, and Supplier replenishes such ISP Material within its applicable lead-time. For clarity, Supplier's failure to replenish within lead-time would be a material breach of this Agreement. For purposes of this Agreement, "**Quantity Difference**" for an ISP Material is the difference between the Minimum Inventory Quantity and the Maximum Inventory Quantity (each as defined herein).

2. MISCELLANEOUS.

2.1 Confidential Information: Lam and Supplier acknowledge the existence of the Mutual General Purpose Nondisclosure Agreement with an effective date of June 15, 2023, entered into by and between Lam and Supplier (the "**NDA**"). The Parties agree that the terms and conditions of the NDA are incorporated by reference herein and shall apply to this Agreement and shall be binding during the Term and any renewal Term upon the performance of the Parties obligations under this Agreement or the ISP. Lam's Confidential Information (as defined in the NDA) shall be immediately returned by Supplier to Lam upon Lam's request.

2.2 Intellectual Property Indemnity: Supplier represents and warrants that the ISP Materials and the manufacturing processes used to manufacture the ISP Materials do not infringe on any intellectual property rights of a third party and Supplier hereby agrees to indemnify, protect, defend, and hold Lam and its customers harmless from all asserted claims, suits, actions, actual losses, damages, judgments, out of pocket fees, costs and expenses which may be sustained or that are incurred by Lam or its customers arising out of a claim that the Supplier's products or the ISP Materials infringe, directly or indirectly, any patent, copyright, mask work right, trade secret or any other intellectual property right of any third party. Supplier shall not settle any claim which has any adverse effect on or requires an admission of any wrongdoing by Lam or its customers without the written consent of Lam.

2.3 Responsible Business Alliance and Supplier Code of Conduct: The Responsible Business Alliance® (RBA®) outlines acceptable standards for employee working conditions, environmental stewardship, business ethics, regulatory adherence, and business efficiency. Supplier agrees in its performance of the obligations under this Agreement to adhere to the RBA Code of Conduct (version 8.0 and as updated during the Term, a copy of which can be located at http://www.responsiblebusiness.org/standards/code-of-conduct) and to comply with Lam's the then-current supplier code of conduct implemented by Lam or any customer of Lam and applicable to Lam as the purchaser, user, or reseller of the ISP Materials.

2.4 Compliance with Laws: Supplier agrees to comply with any and all applicable local, state, federal, and foreign laws, orders, directives, policies, rules, and regulations heretofore or hereafter promulgated applicable to the ISP Materials, the services and/or products provided by Supplier, or attributable to Supplier's performance of its obligations under this ISA, including, but not limited to, (a) laws requiring equal opportunity and affirmative action, (b) anti-bribery, anti-corruption, and related records keeping laws, (c) customs and export control laws, including the United States Export Administration regulations, and (d) laws relating to the Universal Declaration of Human Rights, child labor, and health and safety. Without limiting the foregoing, Supplier will not, except as authorized under all applicable export control laws and regulations, import, export, or re-export any Lam technology, or export the direct product of Lam technology, to any person, entity, or destination that is restricted, sanctioned, or embargoed under any such export control laws and regulations, or to any person whose most recent citizenship or permanent residence is from an embargoed country. The rights and obligations of this Section 2.4 shall survive the cancellation, termination, or completion of any purchase order(s) or this Agreement. Lam retains the right to audit Supplier and Supplier agrees to provide Lam with any and all documents, information, or reports necessary to demonstrate Supplier's compliance with the obligations in this Section 2.4. Supplier will, upon Lam's request, promptly provide such accurate, complete, and timely information, documentation, certification, and reasonable access and assistance as Lam may request to assist Lam in complying or confirming Supplier's compliance with: (i) any and all local, state, federal, and foreign laws, rules, or regulations applicable to Lam as the purchaser, user, or reseller of the ISP Materials; (ii) any self-regulatory, industry, or other third-party standards and rules applicable to Lam as the purchaser, user, or reseller of the ISP Materials; and (iii) the Responsible Business Alliance Code of Conduct and the-then current supplier code of conduct implemented by Lam or any customer of Lam and applicable to Lam as the purchaser, user, or reseller of the ISP Materials. Without limiting the foregoing, Supplier will: (A) disclose whether the ISP Materials contain any conflict minerals as defined under Section 1502 of the U.S. Dodd-Frank Act and its implementing regulations (collectively the "**Conflict Minerals Law**") that are necessary to the production or functionality of the ISP Materials ("**Conflict Minerals**"); and (B) if the ISP Materials contain any Conflict Minerals, provide such information as Lam may request to allow Lam to determine whether those Conflict Minerals are "DRC conflict-free" as defined in the Conflict Minerals Law, including information

on Conflict Mineral smelters in the relevant supply chains. Supplier shall defend, indemnify, and hold Lam harmless from any loss, damage, costs, claims, penalties, interest, and/or expense(s) arising out of, in whole or in part, Supplier's violation of any applicable law, rule, regulation, directive, or ordinance of the United States and any state, city, county, region, province, or country, and/or any applicable governmental agency or authority in the performance of the obligations set forth in this ISA.

2.5 Choice of Law and Disputes: This ISA will be governed, construed, and enforced in all respects by the laws of the State of California, U.S.A., without regard to conflict of law considerations. The Parties agree and consent that jurisdiction and venue of any lawsuit or arbitration between the Parties arising out of or relating to this ISA shall lie within the boundaries of Santa Clara County, California. The Parties agree that the UN Convention on Contracts for the International Sale of Goods shall not apply and is hereby expressly excluded. Should any provision of this ISA become unenforceable under applicable law, the remaining provisions shall remain in effect and be interpreted so as to best reasonably effectuate the intent of the Parties. The prevailing Party in any lawsuit or arbitration arising out of or related to this ISA shall be entitled to recover all reasonable costs, fees, and expenses, including reasonable costs of attorneys, expert witnesses, consultants, and other professionals.

2.6 Entire Agreement: This ISA, together with all attachments and schedules hereto, constitute the entire understanding and agreement of the Parties with respect to the ISP Materials and supersede all prior and contemporaneous understandings, representations, and agreements, whether written or oral, with respect to such subject matter. Supplier agrees that any and all purchases of any product (including any Stale Inventory as defined in the ISP) by Lam or any Authorized Third-Party Supplier from Supplier shall be governed by the terms and conditions set forth in the Lam generated purchase order.

2.7 Order of Precedence: In the event of any inconsistency among this ISA, the ISP, any Supplier generated purchase order acknowledgements, Forecast and/or any documents incorporated by reference herein, the provisions of this ISA shall prevail unless expressly stipulated otherwise, in writing executed by an authorized representative of both Parties.

2.8 Successors: The rights and liabilities of the Parties hereto shall bind and inure to the benefit of their respective successors or permitted assigns.

2.9 Assignment and Subcontracting: Without the prior written consent of Lam, which Lam may withhold in its sole discretion and for any reason, Supplier may not assign, delegate, or otherwise transfer any or all of its rights or obligations hereunder, voluntarily or involuntarily, including by Change of Control (which shall be deemed an assignment requiring consent for purposes of this Section 2.9), operation of law, or any other manner. Any purported assignment, delegation, or transfer in violation this Section 2.9 is null and void. For purposes of this ISA, the term "**Change of Control**" means the occurrence of any of the following events: (a) any consolidation or merger of Supplier with or into any other entity in which the holders of Supplier's outstanding voting securities immediately before such consolidation or merger do not, immediately after such consolidation or merger, retain voting securities representing a majority of the voting power of the surviving entity or voting securities representing a majority of the voting power of an entity that wholly owns, directly or indirectly, the surviving entity; (b) the sale, transfer or assignment of securities of Supplier representing a majority of the voting power of all of Supplier's outstanding voting securities to an acquiring party or group; or (c) the sale, lease, exclusive license or other disposition (in a single transaction or series of related transactions) of assets representing more than fifty percent (50%) of the net book value or fair market value of the assets of the business unit, division or subsidiary of Supplier that originally supplies the ISP Materials or products to Lam. Lam may, in its sole discretion, assign this ISA at any time to an affiliated, subsidiary or successor company without notice to or the consent of Supplier.

2.10 General Indemnification: Supplier shall be responsible for and shall defend, indemnify and hold harmless Lam and its affiliates, subsidiaries, and employees from and against any and all loss, claim, or damage, including reasonable and necessary attorneys' fees and court costs that arise out of, or are incidental to, this Agreement or the ISP Materials provided by Supplier if such loss, claim, or damage is caused by or a result of Supplier's breach of this Agreement or the acts, omissions, negligence, or fault of Supplier or Supplier's employees, agents, and/or subcontractors.

2.11 Digital/Electronic Signature Agreement: The Parties agree that this Agreement may be signed digitally or electronically. Each Party agrees that any digital or electronic signature is the legal equivalent of a manual signature on this Agreement and further agrees that its use of a key pad, mouse or other device to sign or select an item, or in accessing or making any transaction regarding consent to the Agreement which is validated through a certification authority or other third party verification method, constitutes a signature (hereafter referred to as "**E-Signature**"), acceptance and agreement as if actually signed by a Party in writing. Each Party understands and agrees that it has the option to sign this Agreement manually or via E-Signature. The exchange of copies of this Agreement, inclusive of manual and E-Signature pages, by facsimile transmission (whether directly from one facsimile device to another by means of a dial-up connection or whether mediated by the worldwide web), by electronic mail in "portable document format" (".pdf" format), or by any other electronic means intended to preserve the original graphic and pictorial appearance of a document, or by a combination of such means, shall constitute effective execution and delivery of this Agreement as to the Parties and may be used in lieu of an original Agreement for all purposes. Signatures of the Parties transmitted by E-Signature shall be deemed to be their original signatures for all purposes.

2.12 Survival: The rights and obligations set forth in this Section 2 shall survive any expiration or termination of this ISA.

In witness of their agreement to these terms, the Parties have caused this ISA to be executed by their duly authorized representatives.

ATTACHMENT(S)
Inventory Stocking Procedures (ISP)

INVENTORY STOCKING PROCEDURES (ISP)

1.0 GENERAL:

1.1 Purpose: This ISP documents Lam's binding policy and procedures relating to the allocation and stocking of specifically identified ISP Materials at Supplier's facility or the facility of Supplier's affiliated entities (as the case may be) to meet Lam's express minimum ISP Material(s) requirements, for the timely manufacture of certain equipment or modules for Lam according to Lam's forecast, and to establish Lam's maximum financial liability, if any, for such ISP Materials. The specific materials and products contemplated by this ISP are products, modules, equipment and/or materials, which have unique long manufacturing lead-times, or whose component or constituent parts may require Supplier to commit to high minimum volume purchases or non-cancelable non-returnable status.

This ISP also contemplates that, on occasion upon receiving appropriate authorization from Lam, Lam's Authorized Third-Party Suppliers may also request to purchase ISP Materials from Supplier under the terms provided or incorporated herein.

2.0 DEFINITIONS:

In addition to the definitions provided in the ISA, the following definitions shall be used for purposes of the ISP.

2.1 "**Agreement**": The Inventory Stocking Agreement ("**ISA**") entered into by and between the Parties for the ISP Materials set forth herein.

2.2 "**Authorized Third-Party Supplier**": Those third-party suppliers whose purchase and use of materials from the Supplier's stock of the ISP Materials is expressly authorized by Lam.

2.3 "**ISP Materials**": All of products, units, items, components, raw materials, modules, equipment, intermediate assemblies, assemblies, parts, spare parts, software, hardware, upgrades, and end products to be stocked or provided by Supplier under the ISA as identified on the ISP Schedule(s) as defined below.

2.4 "**ISP Schedule(s)**": Written schedules, spreadsheets and/or exhibits, issued by Lam identifying the specific ISP Materials covered under this Agreement, which will also include the then current Inventory Quantity levels. ISP Schedules may be changed from time to time during the Term as set forth in Section 3.1 below. The then-current ISP Schedule(s) is hereby incorporated by reference into this Agreement.

2.5 "**Maximum Inventory Quantity**": A maximum quantity level of the ISP Materials that Supplier will maintain in stock at Supplier's facility during the Term of the Agreement. The ISP Materials that must be kept between the Minimum and Maximum Inventory Quantity levels will be set forth in the ISP Schedules.

2.6 "**Minimum Inventory Quantity**": A minimum quantity level of the ISP Materials set forth in the then current ISP Schedule that Supplier must continue to maintain in stock at a designated Supplier's facility or facilities, throughout the Term of the Agreement.

3.0 SUPPLIER'S MINIMUM OBLIGATIONS:

3.1 Lam and Supplier understand that the list of ISP Materials and the Minimum and Maximum Inventory Quantity levels will need to be adjusted periodically based on Lam's business needs and the changing demand for the ISP Materials. As a result, Supplier agrees that Lam may make modifications to the ISP

Schedules from time to time throughout the Term by notifying Supplier of the requested change to the ISP Schedule. Supplier agrees to use commercially reasonable best efforts to meet and accommodate any Lam requested revisions to the ISP Schedules, including adding or removing ISP Materials and/or changing the Minimum and/or Maximum Inventory Quantity levels. If Supplier is unable to promptly accommodate Lam's requested for changes to the ISP Schedule, Supplier shall promptly provide Lam with written notice of its inability to accommodate Lam's requested change and provide Lam with an update on when Supplier expects it will be able to accommodate the ISP Schedule changes requested by Lam. If Supplier does not provide Lam with written notice within seven (7) calendar days of its receipt of Lam's notice of requested ISP Schedule changes, the new ISP Schedule will be deemed accepted by Supplier and Supplier will be obligated to perform to the new ISP Schedule, including any revised ISP Materials and/or the Minimum Inventory Quantity requirements set forth therein.

3.2 Supplier shall, at all times during the Term of the Agreement, maintain a Minimum Inventory Quantity of the ISP Materials as described in the then-current ISP Schedule(s). Supplier understands and agrees that this Minimum Inventory Quantity is not a re-order point or target level but the absolute minimum stock quantity that Lam requires. Minimum Inventory Quantity will be determined and may be changed solely at the discretion of Lam by following the process and procedures set forth herein. Lam and Supplier understand that minimum quantities will need to be adjusted periodically based on changing demand for ISP Materials. Lam shall reasonably endeavor to update and give Supplier prior written notice of any change to the Minimum Inventory Quantity within the first week of every calendar quarter. If Supplier is not able to meet the new Minimum Inventory Quantity, Supplier shall immediately provide Lam with written notice of when it will be able to meet the new minimum quantity level requested by Lam. If Supplier does not provide Lam with written notice within seven (7) calendar days of receipt of Lam's minimum quantity change notice, Supplier will be obligated to perform to the new minimum quantity requirements set forth therein.

3.3 Supplier agrees to use and implement a First-In First-Out (FIFO) process for purposes of maintaining the Minimum Inventory Quantity and accommodating Purchase Order for all ISP Materials.

3.4 **Failures to Maintain Minimum Inventory Quantity Levels.** In the event the Supplier's inventory of any particular part number of the ISP Materials falls below the Minimum Inventory Quantity, Supplier shall replenish its inventory to the Minimum Inventory Quantity as soon as commercially possible. Supplier shall be solely responsible for any expedited shipping or transportation costs incurred in curing the inventory shortages, and at the request of Lam, Supplier shall provide Lam a root cause analysis of the in-stock shortage and explain in reasonable detail the steps it will take to avoid any future inventory shortages. In the event Supplier's ISP Materials for any particular part number falls to a zero (a.k.a. an "out of stock" condition), in addition to all other rights and remedies available to Lam under the Agreement or provided by law, Supplier agrees that Lam shall be entitled to a discount in an amount equivalent to twenty percent (20%) of the purchase price of the ISP Materials needed to remedy the Minimum Inventory Quantity level. Lam will not be entitled to the discounted purchase price if the failure to meet Minimum Inventory Quantity levels is solely caused by Lam ordering ISP Materials at a rate greater than Supplier's ability to replenish based on the lead time for the applicable ISP Material.

3.5 **Discontinuation Notice**. Supplier shall use best efforts to give Lam at least twelve (12) months' prior written notice of any discontinued availability of ISP Material(s). If discontinued availability of ISP Material is due to discontinuation of an embedded/incorporated component part provided by a supplier of Supplier (a "**Subtier**"), then Supplier shall notify Lam within five (5) days of Supplier's receipt of discontinuation notice from a Subtier. Such written notice must be in the form of a Problem Report delivered to Lam in writing and must also include a viable alternative equivalent material or part identified by Supplier that is suitable to fully replace the discontinued material or part in all material respects, including but not limited to fit, form, function, performance, quality, and price. Following delivery of the Problem Report by Supplier, and during such twelve (12)-month notice period, Supplier shall order and maintain sufficient quantities of discontinued ISP Material(s) to meet the Minimum

Inventory Quantities. Prior to the expiration of the discontinuation notice period, Lam shall have a right to request that Supplier make a last time buy for the discontinued material(s) or part(s) for Lam's estimated needs that may go beyond the notice period as Lam deems necessary and appropriate.

3.6 **Supply Constraint**. TIME IS OF THE ESSENCE as to the supply and delivery of products which embody and/or incorporate ISP Materials that Supplier shall maintain in certain quantities under this ISP. If Supplier becomes aware of any supply constraint pertaining to ISP Materials or if it anticipates it cannot timely meet the requirements of a forecast or Lam purchase order for products supplied to Lam, Supplier must promptly notify Lam in writing and propose an action plan to address any such event or circumstance that may affect maintaining the Minimum Inventory Quantity levels of the ISP Materials and the timely and uninterrupted supply of products to Lam. Supplier shall notify Lam in writing within seven (7) days of discovering any event, situation, or circumstance (including force majeure events) that may affect the timely and/or uninterrupted provision of conforming ISP Materials or the products embodying or incorporating the ISP Materials. If Supplier's ability to maintain the necessary Minimum Inventory Quantity levels or manufacture, produce, assemble and/or timely deliver any products to Lam in accordance with the then current forecast or any purchase order, is materially affected or constrained for any reason, Supplier will promptly notify Lam of the supply constraint and Supplier's plan to resolve it, and will provide Lam daily updates regarding the steps taken to resolve the supply constraint. If the supply constraint is due to constrained resources (e.g., personnel, material, equipment, or third-party components), in addition to Lam's other rights and remedies, at no additional cost to Lam, Supplier will allocate the constrained resources to supply ISP Materials or products to Lam before using such resources to supply ISP Materials or products to Lam to any other customer.

3.7 **Shipment**. All purchase orders issued to Supplier by Lam or Lam's Authorized Third-Party Suppliers for products that utilize ISP Materials (e.g., Kits) must be processed and shipped by Supplier within forty-eight (48) hours after receipt of such purchase order, excluding Saturdays (unless approved by Lam per ISP Section 7.6 below) and Sundays. Any failure to comply with this Section 3.7 shall be deemed a material breach of the Agreement.

4.0 LAM'S LIMITED OBLIGATION FOR STALE INVENTORY:

4.1 **Stale Inventory**. At the end of each calendar quarter during the Term, Supplier may request in writing that Lam address any particular units of ISP Materials that have remained in Supplier's stock without any turn or Orders being made by Lam or its Authorized Third-Party Suppliers for the subject ISP Materials for more than one (1) calendar year, as of the end of such calendar quarter ("**Stale Inventory**"). Supplier shall request Lam's permission to, and if and to the extent Supplier receives Lam's approval Supplier shall, use commercially reasonable best efforts to absorb any generic or standard parts or material into its ongoing business operations, and Supplier shall also attempt to sell (at fair market value unless a discount or reduction in purchase price is authorized by Lam in writing), any non-customized ISP Materials in an effort to minimize and/or mitigate any financial liability, if any, that Lam may have for the Stale Inventory. If Supplier cannot absorb or sell all or part of the Stale Inventory (if and to the extent approved by Lam) or Lam instructs Supplier to not perform such cost minimization/mitigation obligations, Supplier shall notify and issue an invoice to Lam in the amount owed for the remaining Stale Inventory. Such invoice shall be for a value of One Hundred Percent (100%) of the Base Price for each unit of Stale Inventory. If Lam has not terminated the Agreement for cause, within sixty (60) calendar days of Lam's receipt of Supplier's undisputed Stale Inventory invoice and reconciliation, Lam shall pay for the Stale Inventory within sixty (60) days of Lam's receipt of such Supplier invoice. Lam's financial exposure for Stale Inventory shall be reduced by the amount of ISP Materials Supplier was able to absorb into its business and any sales or purchases made by Lam or any Authorized Third-Party Supplier. All such claims for payment for Stale Inventory must be substantiated with evidence in form and substance reasonably satisfactory to Lam demonstrating that the ISP Materials in Supplier's inventory have not been used for a period of at least one (1) year. For

clarity, the "**Base Price**" of an ISP Material is the price set forth in the Base Unit Price column in the ISP Schedule.

4.2 **Extended Stale Inventory**. At the end of each calendar quarter during the Term, Supplier may request in writing that Lam address any Stale Inventory that has remained in Supplier's stock without any turn or Orders being made by Lam or its Authorized Third-Party Suppliers for the subject ISP Materials for more than eighteen (18) months, as of the end of such calendar quarter ("**Extended Stale Inventory**"). Supplier shall request Lam's permission to, and if and to the extent Supplier receives Lam's approval Supplier shall, use commercially reasonable best efforts to absorb any generic or standard parts or material into its ongoing business operations, and Supplier shall also attempt to sell (at fair market value unless a discount or reduction in purchase price is authorized by Lam in writing), any non-customized ISP Materials in an effort to minimize and/or mitigate any financial liability, if any, that Lam may have for the Extended Stale Inventory. If Supplier cannot absorb or sell all or part of the Extended Stale Inventory (if and to the extent approved by Lam) or Lam instructs Supplier to not perform such cost minimization/mitigation obligations, Supplier shall notify and issue an invoice to Lam in the remaining amount owed for the remaining Extended Stale Inventory. Such invoice shall be for a value of Eighteen Percent (18%) of the Base Price for each unit of Extended Stale Inventory. If Lam has not terminated the Agreement for cause, within sixty (60) calendar days of Lam's receipt of Supplier's undisputed Extended Stale Inventory invoice and reconciliation, Lam shall pay for the Extended Stale Inventory within sixty (60) days of Lam's receipt of such Supplier invoice. Lam's financial exposure for Extended Stale Inventory shall be reduced by the amount of ISP Materials Supplier was able to absorb into its business and any sales or purchases made by Lam or any Authorized Third-Party Supplier. All such claims for payment for Extended Stale Inventory must be substantiated with evidence in form and substance reasonably satisfactory to Lam demonstrating that the ISP Materials in Supplier's inventory have not been used or ordered for a period of at least eighteen (18) months.

4.3 Lam shall have the right to leave the purchased Stale Inventory (including Extended Stale Inventory) at Supplier's facility, at which point, after payment per Section 4.1, it shall become Lam property. Supplier shall secure the Stale Inventory at Supplier's location(s) in good, clean, safe, and secure condition. Upon Lam taking ownership of the Stale Inventory, Supplier shall, on a calendar monthly basis, issue a credit memo to Lam equal to the value of any consumed Stale Inventory used or utilized by Supplier in that month, such value being One Hundred Percent (100%) of the Base Price for each unit of Stale Inventory and One Hundred Eighteen Percent (118%) of the Base Price for each unit of Extended Stale Inventory. Supplier agrees to designate adequate and dedicated space and provide warehouse personnel at its facility to accommodate the storage and maintenance of the Lam-owned inventory at no charge for ISP Materials outlined in the ISP Schedule.

4.4 No claim for Stale Inventory or Extended Stale Inventory may be made more than one (1) year after such ISP Materials could have been declared to be Stale Inventory or Extended Stale Inventory (as applicable) under the terms of this ISP. In other words, in no event may a claim for (a) Stale Inventory be made for any ISP Material that has been held by Supplier for more than two (2) years, and (b) Extended Stale Inventory be made for any ISP Material that has been held by Supplier for more than thirty (30) months.

5.0 INVENTORY AUDIT/RECONCILIATION:

5.1 Supplier shall review and report to Lam on a quarterly basis a running account of balance on hand of the ISP Material at Supplier's facility. In the event any particular ISP Materials have not been utilized or ordered by either Lam or any Authorized Third-Party Supplier for a period of six (6) months or one (1) year, Supplier shall notify Lam of a potential Stale Inventory issue pertaining to that particular ISP Material.

6.0 PURCHASE OF ISP MATERIALS BY AUTHORIZED THIRD-PARTY SUPPLIER:

6.1 Authorized Third-Party Suppliers may, from time to time, request an opportunity to purchase ISP Materials from Supplier. In such instances, Supplier shall notify the appropriate Purchasing and/or Business Manager at Lam verbally of the request from the Authorized Third-Party Supplier, with a written request to follow thereafter. Lam shall provide a response to the request upon an internal review and shall use commercially reasonable efforts to notify Supplier within two (2) business days. Supplier shall not release or sell ISP Materials without first obtaining Lam's actual written approval if Supplier reasonably believes that the Authorized Third-Party Supplier's purchase of ISP Materials may affect Supplier's ability to maintain the Minimum Inventory Quantity. Upon approval from an authorized representative of Lam's Procurement organization, Supplier is free to sell such ISP Materials to the Authorized Third-Party Supplier, provided, however, that Supplier shall only look to such Authorized Third-Party Supplier for payment for such ISP Materials and that, even following such third-party sale, Supplier shall continue to meet Supplier's inventory obligations to Lam, including meeting the Minimum Inventory Quantities then in place. If Supplier deems that selling any inventory to another Authorized Third-Party Supplier will cause potential non-compliance with the ISP, Supplier must notify Lam. Upon receiving such notice, Lam may at its option either instruct Supplier to temporarily suspend such sales to the Authorized Third-Party Supplier until Supplier's inventory is adequately replenished within the necessary lead-times or authorize Supplier to proceed with the sale of the ISP Materials to Authorized Third-Party Supplier.

7.0 AGREED PRICES/FEES:

7.1 Subject to any volume discounts, the agreed original purchase price for ISP Materials shall be as set forth in the "Price List" column in the applicable ISP Schedule, and shall be inclusive of all costs, fees, and other charges. Such price shall be fixed for the first year of the Term of the Agreement and may only be revised by Supplier obtaining Lam's prior written consent. If pricing for an ISP Material is not agreed upon by the Parties by the end of the first year of the Term, Supplier shall pause replenishment of such ISP Material until the Parties agree to pricing for such ISP Material. Supplier agrees to make these prices for ISP Materials available to Lam as well as to Authorized Third-Party Suppliers. Lam shall not be liable for any individualized charges such as individual components or materials, storage, fees, freight charges, and duties, whatsoever, unless otherwise agreed to by Lam in writing. Prices shall also indicate any and all sales, use, excise, and similar taxes.

7.2 Prices for ordered ISP Materials shall not exceed the lowest prices offered to Supplier's other customers for like materials or products, in like quantities.

7.3 **Set-Up Fee**. Following execution of the Agreement, Lam shall pay to Supplier a one (1)-time set up fee (the "**Set-Up Fee**"), equaling the greater of (a) $50,000, or (b) 2% of the ISP Schedule Value of the initial ISP Schedule, as attached hereto. For purposes of the Agreement and this ISP, "**ISP Schedule Value**" means the value of all ISP Materials under the then-current ISP Schedule (aggregate value of each ISP Material MULTIPLIED BY Price MULTIPLIED BY Maximum Inventory Quantity). Thereafter, if/once Supplier has stocked at least $2,500,000 worth of ISP Materials during the Term, then, any time a new type of ISP Material (not replenishment) is added to the ISP Schedule, Lam shall pay to Supplier a one-time fee totaling two percent (2%) of the value of such new ISP Material(s), such value being the new ISP Material MULTIPLIED BY Price MULTIPLIED BY Maximum Inventory Quantity.

7.4 **Monthly Operating Fee**. At the end of each month, Lam shall pay to Supplier a monthly operating fee, equaling the greater of (a) $15,000, or (b) seven percent (7%) of 1/12 of the On Hand Value as of the end of such month (i.e., 0.5833% of the On Hand Value at the end of such month) (the "**Monthly Operating Fee**"). For purposes of the Agreement and this ISP, "**On Hand Value**" means the value of all ISP Materials on hand and currently stocked on Supplier shelves, not to exceed the Maximum

Inventory Quantity for each ISP Material (aggregate value of each ISP Material MULTIPLIED BY Price MULTIPLIED BY current on hand stocked quantity). For clarity, (i) On Hand Value does not include value of any parts held by Supplier to be used for replenishment, but not yet an ISP Material stocked hereunder, and (ii) Stale Inventory purchased by Lam and held by Supplier per Section 4.3 shall be considered an "ISP Material on hand and currently stocked" for purposes of calculating the On Hand Value, even if the inclusion of such Stale Inventory results in the quantity of an ISP Material (including such Stale Inventory) exceeding the Maximum Inventory Quantity.

7.5 **Extra Kit Fee**. The parties intend for the ISP Materials stocked under the Agreement to be utilized by Supplier to manufacture Printed Circuit Boards Assembly Kits ("**Kits**"). A certain quantity of certain ISP Materials is utilized to manufacture a single Kit (such quantity of ISP Materials, the "**Single Kit Quantity**"). If, in any calendar week, the quantity of ISP Materials pulled from stock by Supplier for Kit manufacture (based on applicable orders by Lam or an Authorized Third-Party Supplier) exceeds a Single Kit Quantity of 40, Lam shall pay to Supplier a flat fee of Five-Hundred Dollars ($500 USD) for each Single Kit Quantity beyond 40 pulled by Supplier during such calendar week (calendar week is Monday-Friday, beginning Monday at 12am at Supplier location where ISP Materials will be stocked) (the "**Extra Kit Fee**"). For example, if, in a calendar week, Supplier pulls ISP Materials totaling a Single Kit Quantity of 45, Lam shall pay to Supplier $2,500 ($500 x 5).

7.6 **Weekend Support Fee**. The pricing agreed to by the parties herein does not contemplate needing Supplier to regularly perform Agreement/ISP-related work on Saturdays. If Kit orders by Lam and/or Authorized Third-Party Suppliers are of such a volume as to require Supplier to have its personnel work on a Saturday in order to properly perform Supplier's obligations under the Agreement/this ISP and the applicable Kit orders, then Supplier shall request Lam's permission for Supplier to schedule additional Supplier personnel (the "**Saturday Personnel**") to fill applicable Kit orders placed by Lam and/or Authorized Third-Party Suppliers on a Saturday. Lam shall pay to Supplier a flat fee of Nine-Hundred Dollars ($900) for each half shift (half shift is four (4) hours) worked by Supplier personnel on a Saturday filling applicable Kit orders placed by Lam and/or Authorized Third-Party Suppliers (the "**Weekend Support Fee**"). For clarity, Lam's obligation to pay a Weekend Support Fee is contingent on Supplier receiving Lam's written prior authorization for Supplier to schedule personnel to work on a Saturday filling applicable Kit orders placed by Lam and/or Authorized Third-Party Suppliers (such approval must include total Weekend Support Fee for such day, including number of personnel and number of shifts). Lam shall only be obligated to pay any Weekend Support Fee to the extent pre-authorized by Lam in writing. In addition, if Lam is to pay a Weekend Support Fee for Saturday Personnel, such Saturday Personnel shall only work on Kit orders by Lam and/or Authorized Third-Party Suppliers, and no work for any other Supplier customer, and Lam shall have no obligation to pay any Weekend Support Fee if Saturday Personnel do any work for any other Supplier customer.

7.7 **Rework Fee**. If Lam and/or an Authorized Third-Party Supplier places a purchase order for a Kit, Supplier pulls a Single Kit Quantity of ISP Materials for assembly into such Kit, Supplier assembles such Kit with such Single Kit Quantity of ISP Materials, and then Lam and/or an Authorized Third-Party Supplier cancel such Kit purchase order, Supplier shall then disassemble such Kit and use the ISP Materials from such Kit to replenish the stock of ISP Materials, in accordance with this Agreement. In such an instance, Lam shall pay to Supplier a (a) flat fee of Five-Hundred Dollars ($500) per Kit that Supplier disassembles, if such Kit is made up of up to twenty (20) different types of ISP Materials, and (b) flat fee of One-Thousand Dollars ($1,000) per Kit that Supplier disassembles, if such Kit is made up of more than twenty (20) different types of ISP Materials.

7.8 **Fee Payment**. At the end of each calendar month, if any Set-Up Fee, Monthly Operating Fee, Extra Kit Fee, Weekend Support Fee, and/or Rework Fee (collectively, the "**Fees**") has been incurred by Lam, Supplier shall invoice Lam at the end of such month, and if Lam has not terminated the Agreement for cause, Lam shall pay such undisputed invoice within sixty (60) days of receipt of such Supplier invoice.

8.0 LIMITATION OF LIABILITY/INSURANCE/OWNERSHIP OF ISP MATERIALS:

8.1 Supplier is solely responsible for all costs and expenses associated with storage, safe-keeping, and maintenance of the ISP Materials. All ISP Materials shall remain Supplier's property up until the point and time of actual acceptance of the ISP Materials by Lam or an Authorized Third-Party Supplier. Supplier shall bear all risk of loss with respect to the ISP Materials (other than to the extent actually, directly, and solely caused by Lam's gross negligence or willful misconduct).

8.2 The Parties recognize that Lam's ability and commitment to purchase ISP Materials is based upon changing market conditions and Lam's fluctuating manufacturing requirements. Supplier's obligation under the Agreement and the ISP is to maintain a certain minimum level of ISP Materials available and on-hand at Supplier's facility for Lam's designated use; and Lam's obligation to pay for any such ISP Material, if any, is expressly limited to ISP Materials that it actually utilized and ordered by Lam (subject only to Lam's limited financial exposure for Stale Inventory (as described herein).

8.3 **Limitation of Liability**. Except to the extent expressly set forth in Section 4.1 and Section 4.2 of this ISP, Lam shall have no other obligation to Supplier and makes no representation whatsoever that it will utilize, order or consume any or all of the ISP Materials stocked, manufactured or produced by Supplier or that it will compensate Supplier in any respect for any action taken or expense incurred in reliance on the Agreement, any forecast provided by Lam, or any representation or expectation of actual or future business from Lam or its Authorized Third-Party Suppliers. Lam is not liable to Supplier in any manner or obligated to make any payment for any cause or claim with respect to Stale Inventory or otherwise in the event Lam terminates the Agreement for cause. Further, Lam's maximum liability to Supplier for Stale Inventory, or arising out of any other breach of the Agreement by Lam, whether in the event of termination, change, or otherwise, shall be limited to (a) the amount of multiplying the purchase price set forth in the purchase order for each individual ISP Material by the Maximum (or Minimum if no Maximum is identified in the applicable then-current ISP Schedule for that part) Inventory Quantity levels stated for such ISP Materials schedule in place at the time of Supplier's last delivery of such product to Lam or its Authorized Third-Party Supplier, plus (b) the value of any Fee(s) incurred, but not yet paid, by Lam in accordance with Section 7 above. IN NO EVENT SHALL LAM BE LIABLE TO SUPPLIER, OR ITS AGENTS, SUBCONTRACTORS, SUCCESSORS OR ASSIGNS, FOR ANY CONSEQUENTIAL, INCIDENTAL, SPECIAL, INDIRECT, OR PUNITIVE DAMAGES WITH RESPECT TO ANY CLAIM ARISING FROM OR RELATED TO THE AGREEMENT, THE ISP AND/OR THE TRANSACTIONS CONTEMPLATED HEREIN.

9.0 MISCELLANEOUS:

9.1 Except for Section 4.1, Section 4.2, and Sections 7.3-7.8 of this ISP, Lam may amend all or a portion of this ISP and any procedures contained herein at any time by providing notice to Supplier. Notice shall be deemed effective within thirty (30) days of Lam's (a) posting or publishing of the amended ISP on 'MyLam.com' or on any other Lam designated electronic access point, or (b) the delivery of notice of the amendment with either a copy of the amendment or a link to the amended ISP. During the Term of the Agreement, any changes or modifications to Section 4.1, Section 4.2, and Sections 7.3-7.8 of this ISP will not be effective with respect to any claim for Stale Inventory without the prior written consent of an authorized representative of both Lam and Supplier.

9.2 This ISP is written in English and shall be construed in its English form, regardless of the location of Supplier or the Lam entity that purchases ISP Materials.
